good, sound judgment to guard one in the dance pantomime, which I call the dance of the senses.

Every dance is really a pantomime—that is, the portrayal, without words, of some story. Ordinary pantomimes can be arranged by anyone who has imagination and is willing to work hard, and these dances are splendld for developing the ingenuity of the performer, as one has to convey an entire story by means of gesture and action aloue.

You will get a tremendous amount of fun out of a pantomime which can be arranged to suit andlences, and the moving pictures should give you endless ideas of what stories to act out.

The dance of the emotions, however, The dance of the emotions, however, while it is in a way pantomime, is an elaborate dance, the various feelings and sensations being depicted by rythmic gestures of the body to the accompaniment of music.

The Original idea. The Original Idea.

The Original idea is that of a purs soul coming to earth. One after an-other the soul is filled with all the arring emotions known to the human

The second part shows the soul's temp-tations. A bag of gold lies on the ground. This the dancer picks up and lets the gold pieces run through her fingers, excitement, greed, ambition and lust of power and money showing in her face and overcoming all the gentle emotions of the previous dance, while she glides about expressing the misery, covetous, selfish desire for money.

Next she espies the grapes and rushing them into the golden cup, a bacchanglian dance of the senses follows, which is danced in the leopard skin, a familiar symbol of carnal apskin, a familiar symbol of carnal appetites. At the end of this riotous dance she drops to the ground exhibits of an another the sound of a death direct fear of death, the deskre to live, self-pity and other conflicting emotions are plainly shown in dance and gesture.

At the end, repentance, and finally in a great burst of music the deathless woul, triumphant over the senses, wings its way to immortality.

Must Have Central.

Mast Have Control. To dance a pantomime of this kind ne has to have control over a great technique, and be able to make every gesture mean something. That is what most dancers cannot do. They make many gestures, take countless mean. At Balmorchea, the Toyah Valley ingless steps, and the onlookers ask themselves. "What does it all mean?"

Costume, of course, helps a lot, and falfa exclusively.

Brings Suit to Compel Same; Secretary White on Witness Stand.

New York, N. Y., May 122—Proxies of shareholders of the Waters Pierce Oil company were sought by agents acting directly for John D. Rockefeller to defeat the Pierce faction of the company last February and place Standard Oil interests in control, according to testimony given here before a commissioner by Charles T. White, secretary of the Standard Oil of New Jersey.

Mr. White testified that he was instructed by James A. Moffett, viespresident of the Standard Oil company to gather proxies in the name of Walter F. Taylor and Michael Vapburen. He said Mr. Moffett told him at the time he "was acting for J. D. Rockefeller and other large interests." Mr. Rockefeller, the witness said owned one-fourth of the stock of the Waters-Pierce company. Mr. White got Mr. Rockefeller's proxy and those of Messre. William Rockefeller, Moffett. C. M. Pratt, Henry M. Flagler, and many others, but of all he approached none asked him for what directors Mesgre. Taylor and Vanburen would vote, Vanburen is a soninlaw of John D. Archbold, president of the Standard. Mr. White said, and Taylor was employed in the Standard's legal department.

Pierce and Standard Hostile. Pierce and Standard Hestile.

It was the first time in the history of Standard Oil, Mr. White said, that any officials, so far as he knew, had canvassed shareholders of another company for proxies. He knew, he said, that the Pierce and Standard Oil interests were very hostile and that the proxies he procured would be used in the election last February, Mr. Whits was in charge, he said of the quest for proxies.
